Administer Users and Licenses for Cisco AppDynamics

Category: AI, Data & Analytics | **Vendor:** Cisco

Duration: 8.00 hours (1 days) **6.5 CPD Hours** **Rating:** ⭐ 4.6 (5,878 reviews)

Course Information

Delivery Format: Instructor Led - Online

Course Overview

The Administer Users and Licenses for Cisco AppDynamics (APM400) training shows that Cisco AppDynamics uses a role-based access control model to assign permissions to users and groups. In this training, you will learn how to create users locally, as well as how to manage your company’s users in Cisco AppDynamics using an external Identity Provider (IDP), specifically, Security Assertion Markup Language (SAML) IDP in this training. You’ll create roles and groups to assign permissions to users. You will also explore the differences between the agent-based licensing (ABL) model and infrastructure-based licensing (IBL) model and learn how to migrate from ABL to IBL.

How You'll Benefit

This training will help you:

- Understand how to assign permissions to users and groups in AppDynamics
- Gain leading-edge skills for high-demand responsibilities in the cloud computing industry

About This Course

The Administer Users and Licenses for Cisco AppDynamics (APM400) training shows that Cisco AppDynamics uses a role-based access control model to assign permissions to users and groups. In this training, you will learn how to create users locally, as well as how to manage your company’s users in Cisco AppDynamics using an external Identity Provider (IDP), specifically, Security Assertion Markup Language (SAML) IDP in this training. You’ll create roles and groups to assign permissions to users. You will also explore the differences between the agent-based licensing (ABL) model and infrastructure-based licensing (IBL) model and learn how to migrate from ABL to IBL.

How You'll Benefit

This training will help you:

- Understand how to assign permissions to users and groups in AppDynamics
- Gain leading-edge skills for high-demand responsibilities in the cloud computing industry

Who Should Attend

Cisco AppDynamics platform administrators who need to manage account licenses, assign permissions to users, and/or connect Cisco AppDynamics to an external IDP
