Related Exam:	SAFe-SA

Course Overview

As organizations race to stay competitive, leaders must master both the “operating system” of business agility and the transformative potential of AI. This course provides the foundational knowledge to lead a Lean-Agile enterprise while integrating AI as a powerful work accelerant. You will learn to align complex organizations around clear goals, drive customercentricity, and use specific AI prompting techniques to streamline your leadership responsibilities. By mastering the intersection of SAFe and AI, you will empower your teams to deliver higher-quality solutions at unprecedented speeds.

Level: Foundational
