Course Overview

The IAITAM Certified Mobile Asset Manager (CMAM) course prepares individuals and organizations responsible for the management of mobile devices. Proliferation of mobile devices within the enterprise, whether corporate-owned or BYOD-based, has brought a complexity to ITAM never before seen in IT environments. The course will prepare individuals with the knowledge to manage personnel, policies and processes, the key elements in organizational IT management. This course encompasses both organizational owned assets as well as BYOD (employee-owned). The CMAM course has the IAITAM Best Practice Library as its foundation and encompasses financial viability, risk mitigation, policy enforcement and lifecycle management of mobile assets.

About This Course

The IAITAM Certified Mobile Asset Manager (CMAM) course prepares individuals and organizations responsible for the management of mobile devices. Proliferation of mobile devices within the enterprise, whether corporate-owned or BYOD-based, has brought a complexity to ITAM never before seen in IT environments. The course will prepare individuals with the knowledge to manage personnel, policies and processes, the key elements in organizational IT management. This course encompasses both organizational owned assets as well as BYOD (employee-owned). The CMAM course has the IAITAM Best Practice Library as its foundation and encompasses financial viability, risk mitigation, policy enforcement and lifecycle management of mobile assets.

Who Should Attend

This course is intended for those persons who will implement, manage and direct mobile asset Initiatives for their organizations.

Learning Outcomes

Upon successful completion of this course, participants will be able to:

The CMAM course prepares students to implement a foundation of best practice policies and processes whereby mobile assets are controlled. This should lead to savings opportunities, risk mitigation surrounding BYOD and financial responsibility. Students will be able to incorporate mobile asset management and BYOD into their environment, policies and procedures to mitigate risk, increase productivity of employees, and bring value from the mobile asset management program.
