Course Overview

If you are looking to understand the implications of the NIS2 Directive and build a robust cybersecurity compliance strategy, the Certified NIS2 (CNIS2) course is for you. This course delivers essential knowledge and practical guidance to help organizations align their cybersecurity practices with NIS2 requirements, covering governance, risk management, incident response, and supply chain security.As cyber risk concerns are becoming increasingly prominent in the risk profiles of organizations, members of senior management bodies are required to understand these risks and make informed decisions for the organization that consider these risks and their impact, not just on the organization itself, but also on the ultimate recipients of their products and services. The Network and Information Systems Directive released in 2022 (NIS2 Directive) emphasizes the importance of this understanding and involvement by these members of the organization®s management bodies by requiring them to actively involve themselves in cybersecurity risk management and the implementation of measures to make these risks justifiably acceptable.

About This Course

If you are looking to understand the implications of the NIS2 Directive and build a robust cybersecurity compliance strategy, the Certified NIS2 (CNIS2) course is for you. This course delivers essential knowledge and practical guidance to help organizations align their cybersecurity practices with NIS2 requirements, covering governance, risk management, incident response, and supply chain security.

As cyber risk concerns are becoming increasingly prominent in the risk profiles of organizations, members of senior management bodies are required to understand these risks and make informed decisions for the organization that consider these risks and their impact, not just on the organization itself, but also on the ultimate recipients of their products and services. The Network and Information Systems Directive released in 2022 (NIS2 Directive) emphasizes the importance of this understanding and involvement by these members of the organization®s management bodies by requiring them to actively involve themselves in cybersecurity risk management and the implementation of measures to make these risks justifiably acceptable.
