Course Information

Delivery Format:	Instructor Led - Online
Certification:	Certified Information System Risk Manager (C|ISRM)
Related Exam:	C)ISRM

Course Overview

Certified Information Systems Risk Manager, CISRM, course is made for IT and IS professionals who are involved with all aspects of risk management. Requests for this particular area of certification is growing fast in the employment sector. Recent high-profile breaches in both the public and private sectors have increased awareness for the need for Risk Management professionals. Mile2's CISRM certification exam will test your knowledge in all areas of risk management. If you would like some training and test preparation before taking the Certified Information System Risk Manager Exam we offer the CISRM course as both a live class and a self-study combo. First, you will learn to assess a system, then implement risk controls. Finally, you will be able to monitor and maintain risk procedures. With this training, you will be able to identify risks associated with specific industries. After course completion, you will be able to design, implement, monitor and maintain risk-based, efficient and effective IS controls. Knowledge of all of these areas will be required to pass the CISRM exam.
