Course Overview

COBIT 2019 Foundation Training Course equips learners with the skills to govern enterprise IT systems effectively. IT systems without governance are like ships without rudders; directionless and risky. With 92% of organizations using cloud services and GDPR fines surpassing $365 million, strong IT governance is critical for success. In this course, you'll explore the COBIT 2019 framework, used worldwide to manage regulatory, operational, and strategic IT demands. You'll gain practical knowledge in COBIT principles, governance structures, and implementation methods to help your organization align IT and business objectives while meeting compliance goals.

About This Course

COBIT 2019 Foundation Training Course equips learners with the skills to govern enterprise IT systems effectively.
