# F2810G IBM FileNet P8 Platform Administration (V5.5.x)

**Category:** Business Applications | **Vendor:** IBM

**Duration:** 40.00 hours (5 days) **32.5 CPD Hours** **Rating:** ⭐ 4.6 (5,878 reviews)

## Course Information

**Delivery Format:** Instructor Led - Online

## Course Overview

This course teaches you the configuration and administration of an IBM FileNet P8 Platform 5.5.x system. It introduces you to thekey concepts of IBM FileNet P8 Platform architecture and organizing the content across the enterprise. You will learn how to buildcontent repositories, configure metadata, create storage areas, manage security, logging, and auditing, run bulk processing, usethe sweep framework, extend the functionality with Events and Subscription, migrate and deploy FileNet P8 assets betweenenvironments, and configure content-based retrieval searches

## About This Course

This course teaches you the configuration and administration of an IBM FileNet P8 Platform 5.5.x system. It introduces you to the
key concepts of IBM FileNet P8 Platform architecture and organizing the content across the enterprise. You will learn how to build
content repositories, configure metadata, create storage areas, manage security, logging, and auditing, run bulk processing, use
the sweep framework, extend the functionality with Events and Subscription, migrate and deploy FileNet P8 assets between
environments, and configure content-based retrieval searches

## Who Should Attend

This course is for administrators and users who are responsible for planning, administrating and configuring an IBM FileNet P8 Platform system

# Learning Outcomes

**Upon successful completion of this course, participants will be able to:**

Introduction to IBM FileNet P8 Platform

- IBM FileNet P8 Platform features
- IBM FileNet P8 Platform integration options
- IBM FileNet P8 Platform components
- IBM FileNet P8 Platform solutions

Architecture and domain structures

- IBM FileNet P8 Platform Architecture
- Explore the core IBM FileNet P8 Platform applications
- Locate P8 domain structures
- Use IBM Content Navigator

Manage logging

- View and archive system logs
- Configure trace logging

Configure auditing

- Create audit definitions
- Prune audit entries

Manage storage areas

- Create a file storage area
- Create a storage policy
- Create an advanced storage area

Build an object store

- Create JDBC data sources for an object store
- Create an object store
- Add the repository to an IBM Content Navigator desktop

Create property templates and classes

- Create a choice list
- Create property templates
- Create document and folder classes

Modify classes and properties

- Change the property template name
- Modify a choice list
- Work with metadata dependencies

Use events to trigger actions

- Create a subscription with an event action
- Update the event action with new code module

Configure security for IBM FileNet P8 assets

- Configure initial object store security
- Use the Security Script wizard
- Configure default instance security
- Configure security inheritance
- Implement designer group access
- Configure role-based access

Use bulk operations

- Use bulk actions to modify security for multiple documents
- Use bulk operations to cancel checkout of documents

Configure content-based retrieval searches

- Register IBM Content Search Services
- Configure index partitioning
- Configure content-based indexes
- Create content-based searches

Work with sweeps

- Configure a bulk move content job
- Create a disposal policy
- Create a content migration policy

Move IBM FileNet P8 Platform applications between environments

- Configure a destination environment
- Create a source environment
- Export the FileNet P8 application assets
- Convert and analyze the FileNet P8 assets
- Import the application assets
- Run a change impact analysis in command line

Introduction to IBM FileNet P8 content services containers

- IBM FileNet P8 content services containers
- Benefits of containers
- Considerations when choosing containers

Organize content across the enterprise

- Plan for Multitenancy
- Isolate content in an IBM FileNet P8 platform system

# Detailed Course Outline

### Introduction to IBM FileNet P8 Platform

- IBM FileNet P8 Platform features

  IBM FileNet P8 Platform integration options

  IBM FileNet P8 Platform components

  IBM FileNet P8 Platform solutions

### Architecture and domain structures

- IBM FileNet P8 Platform Architecture

  Explore the core IBM FileNet P8 Platform applications

  Locate P8 domain structures

  Use IBM Content Navigator

### Manage logging

- View and archive system logs

  Configure trace logging

### Configure auditing

- Create audit definitions

  Prune audit entries

### Manage storage areas

- Create a file storage area

  Create a storage policy

  Create an advanced storage area

### Build an object store

- Create JDBC data sources for an object store

  Create an object store

  Add the repository to an IBM Content Navigator desktop

### Create property templates and classes

- Create a choice list

  Create property templates

  Create document and folder classes

### Modify classes and properties

- Change the property template name

  Modify a choice list

  Work with metadata dependencies

### Use events to trigger actions

- Create a subscription with an event action

  Update the event action with new code module

### Configure security for IBM FileNet P8 assets

- Use the Security Script wizard

  Configure default instance security

  Configure security inheritance

  Implement designer group access

  Configure rolebased access

### +O35Use bulk operations

- Use bulk actions to modify security for multiple documents

  Use bulk operations to cancel checkout of documents

### Configure content-based retrieval searches

- Register IBM Content Search Services

  Configure index partitioning

  Configure contentbased indexes

  Create contentbased searches

### Work with sweeps

- Configure a bulk move content job

  Create a disposal policy

  Create a content migration policy

### Move IBM FileNet P8 Platform applications between environments

- Configure a destination environment

  Create a source environment

  Export the FileNet P8 application assets

  Convert and analyze the FileNet P8 assets

  Import the application assets

  Run a change impact analysis in command line

## Introduction to IBM FileNet P8 content services container

- IBM FileNet P8 content services containers

  Benefits of containers

  Considerations when choosing container

## Organize content across the enterprise

- Plan for Multitenancy

  Isolate content in an IBM FileNet P8 platform system

# Additional Course Details

Nexus Humans F2810G IBM FileNet P8 Platform Administration (V5.5.x) training program is a workshop that presents an invigorating mix of sessions, lessons, and masterclasses meticulously crafted to propel your learning expedition forward.

This immersive bootcamp-style experience boasts interactive lectures, hands-on labs, and collaborative hackathons, all strategically designed to fortify fundamental concepts.

Guided by seasoned coaches, each session offers priceless insights and practical skills crucial for honing your expertise. Whether you're stepping into the realm of professional skills or a seasoned professional, this comprehensive course ensures you're equipped with the knowledge and prowess necessary for success.

While we feel this is the best course for the F2810G IBM FileNet P8 Platform Administration (V5.5.x) course and one of our Top 10 we encourage you to read the course outline to make sure it is the right content for you.

Additionally, private sessions, closed classes or dedicated events are available both live online and at our training centres in Dublin and London, as well as at your offices anywhere in the UK, Ireland or across EMEA.

# Frequently Asked Questions

### Q: What delivery options are available for F2810G IBM FileNet P8 Platform Administration (V5.5.x)?

We offer multiple delivery formats:

- Live Instructor-Led Classroom Online (Virtual/Live Online)
- Traditional Instructor-Led Classroom Training (ILT)
- On-site delivery at your offices anywhere in United Kingdom
- Private dedicated courses customized for your team

---

### Q: How many CPD hours does this course provide?

The 5-day F2810G IBM FileNet P8 Platform Administration (V5.5.x) course provides up to 32.5 CPD hours of structured learning. CPD certificates can be provided upon request.

---

### Q: What is the duration of the F2810G IBM FileNet P8 Platform Administration (V5.5.x) training?

The training takes place over 5 day(s), with each day lasting approximately 40.00 hours including breaks for lunch and refreshments.

---

### Q: Do you provide corporate training for F2810G IBM FileNet P8 Platform Administration (V5.5.x)?

Yes, we provide corporate training, dedicated training, and closed classes for F2810G IBM FileNet P8 Platform Administration (V5.5.x). Training can take place anywhere in United Kingdom including London, Manchester, Birmingham, Edinburgh, or live online allowing teams from across United Kingdom or internationally to attend.

---

### Q: Why choose Nexus Human for F2810G IBM FileNet P8 Platform Administration (V5.5.x)?

Nexus Human is recognized as one of the leading training providers. Our trainers have won multiple awards including:

- Small Firms Best Trainer Award
- National Training Partner of the Year (Ireland) - Multiple Years
- Global Top 30 Instructor Awards (2012, 2019, 2021)
- Tech Excellence Award Nominations
- Learning Performance Institute (LPI) External Training Provider Sponsor 2024

---

### Q: Are there any discount codes available?

Yes! Use discount code **PENPAL5** when booking your F2810G IBM FileNet P8 Platform Administration (V5.5.x) training. Please note that only one discount code can be used per booking and cannot be combined with other special offers.
