Working with Time

Category: AI, Data & Analytics | **Vendor:** Splunk

Duration: 8.00 hours (1 days) **6.5 CPD Hours** **Rating:** ⭐ 4.6 (5,878 reviews)

Course Information

Delivery Format: Instructor Led - Online

Course Overview

This course is for Splunk users, analysts, and administrators who want to deepen their understanding of time-based data analysis in Splunk.

This course covers working with time values and using time commands in Splunk. You will learn how to define and adjust time ranges and format timestamps. Key topics include using the time range picker, leveraging the timechart command, understanding _time field properties, and aligning searches across various time zones. At the end of this course, you will know how to use time and time-related commands efficiently to enhance your searches, visualizations, and overall data analysis.
